

DEPARTMENT OF MATHEMATICS

Clowis East High School

May 21, 2018

Dear AP Statistics or AP Calculus student and family:

You are enrolled in Advanced Placement Statistics or Advanced Placement Calculus for the upcoming school year. In order to be successful, the Advanced Placement College Board suggests that students purchase and become familiar with a graphing calculator during instruction. If you are in AP Stats you need one with statistical applications. The one most highly recommended and user friendly is the **TI-84 CE, TI-84 Plus, TI-84 or silver edition**. It highly recommended that each student purchase their own so that they may be taken home to work on assignments outside of class time. This will be the calculator that is used in class for demonstration and instructional purposes in both AP Stats and AP Calc.

This calculator runs about \$90 - \$120. Traditionally the best prices have been at Target, Wal-Mart, Office Depot, Costco, Sam's club or Office Max. Target usually has a great sale the end of July or first part of August during which you can get one for well under \$100. **We will begin using the calculator in class the first day of class.** Specialized instruction will be given during the progress of the course as we cover the topics in class. Students who are completing AP math courses have found it to be an invaluable tool. Please contact Mrs. Olson or Mr. teNyenhuis if you are unable to purchase a TI graphing calculator or if you already have a different graphing calculator (email jeriolson@cusd.com or gabrieltenyenhuis@cusd.com).

Questions may be directed to the instructors for these courses. This calculator is appropriate for all three AP math courses as well as college math and science courses. There is also summer work for each AP math course posted on the REC website under AP courses.

Sincerely,

Mrs. Jeri Olson

Mr. Gabe teNyenhuis

Mathematics Department Chair

Math Team Advisor

AP Statistics Instructor

AP Calculus AB and BC Instructor
